### DETAILED ACTION

1. Claims 1, 3-7, 9, 11-13, 18-22, 24-30, 37, and 38 are allowed over the prior art of record.

2. The following is an examiner's statement of reasons for allowance:

Regarding Claims 1, 3-7, 9, 11-13, 18-22, and 24-30, the invention as claimed, specifically in combination with a plurality of light-receiving portions, each having microlenses appropriately arranged, each having first, second, and third light-receiving regions with the third light-receiving region having first and second end portions and *continuously* extending from the first end portion to the second end portion along a longitudinal direction of the third light-receiving regions, the first and second light-receiving regions having substantially symmetrical shape with respect to a line parallel to the longitudinal direction and *sandwiching* the third light-receiving region, with the width of center portions of the first and second light-receiving portions being *wider* than the width of a center portion of the third light-receiving region and the width of peripheral portions of the first and second light-receiving regions being *narrower* than the width of the peripheral portions of the third light-receiving region, is not disclosed or made obvious by the prior art of record.

Regarding Claims 37 and 38, the invention as claimed, specifically in combination with a plurality of light-receiving portions, each having microlenses appropriately arranged, each having first, second, and third light-receiving regions, the first and second light-receiving regions having substantially symmetrical shape and *sandwiching* the third light-receiving region *that includes a position where the principal ray of a photographing beam is incident*, with the width of center portions of the first and second light-receiving portions being *wider* than the width of a
